

PENINSULA GIRL SCOUT DAY CAMP

How to Register ...2 options! New this year! Register online at www.peninsuladaycamp.org or send this form

What Happens at Camp?

Campers are assigned to a unit of 16 – 18 campers going into the same grade. Each unit has two adult Unit Leaders and one or two teenaged Aides. This group stays together for the entire ten days so the girls can bond and make new friends. Our program staff and teenage Aides provide craft, skill and nature projects.

Will it be Fun?

Girls will participate in age appropriate nature, craft and skills activities. Imagine the opportunity to build a camp fire, cook and eat outdoors, hand-crank ice cream, weave a basket, and choose your own leather and craft projects. All campers will even decorate their own special camp T-shirt and wear it to the all camp activity on the last day! Middle school campers will pick their own unit from some outstanding choices which may include: You Go Girl (active high adventure), Pioneers (spend 3 nights at Huddart and build their own shelters), Advanced Arts and Crafts (truly awesome weaving looms and projects) plus 6 more choices.

On the last night of camp, we have a traditional campfire gathering, and campers spend the night at Huddart Park with their Unit Leaders and Unit Aides. This is a time for the entire camp to come together and celebrate that we have spent nine days together and are about to spend the night outdoors.

The Volunteer Staff

Our Administrative Staff receives special training from Girl Scouts of Northern California Council in matters regarding campers, security, and safety. The administrative staff is always happy to discuss camp with you. If you have any questions, just ask.

There is a Camp Health Coordinator on site to oversee medical needs big and small. In addition to our Health Coordinator, who is an RN, many of our camp staff are also RNs, EMTs, MDs or trained in advanced first aid.

Peninsula Girl Scout Day Camp is an **all-volunteer** staff camp. All volunteers receive pre-camp training as recommended by the American Camping Association and Girl Scouts USA. The subject matter of training is mandated by Girl Scouts USA and the State of California.
